AUSTRIA ADMITTED

League Com. Vote Unanimous
The Report To Be Approved
Two-thirds Necessary

The committee on applications for membership in the league of nations unanimously voted to admit Austria and membership in the league for that nation now depends on a two-third vote of representatives at Geneva. None of the greater nations look upon the acceptance of Austria as a member nation as being objectionable but the Canadian member of the assembly declared it would be a death blow to the entrance of the United States.

Polly M. May

Miss Polly M. May was born in Iowa July 4, 1848 and died at the home of Mrs. Laura Taylor in this city Nov. 23. Interment at Asbury Chapel Nov. 24. Rev. Richardson, pastor of the Methodist church of this city of which the deceased was a member recounting the features in her life.

With her family Polly May came to this county when she was 11 years of age and at the age of 17 she took up her residence with the family of B. F. Wood where she remained to the day of her death as a member of the family. Sometime after the death of B. F. Wood his widow, Mrs. Ann Wood, came to this city and made her home with her daughter, Mrs. Laura Taylor and Polly May came also. After the death of Mrs. Wood, Polly May, as every one who did not call her aunt Polly, and those were the relatives of the Wood, Moore and Taylor families, spoke of her, continued to make her home with Mrs. Taylor tho her health and strength begun to fail from the day of the loss of her lifelong benefactress. Polly May requested to be buried by the side of Mrs. Wood and her request, as were all other desires of the faithful friend and servant were more than cheerfully granted. Upon the death of Mrs. Ann Wood quite a sum of money was given to Polly May for her use as she desired, and all her personal wants were supplied by different members of the family with whom she spent her life. Her faithfulness, love for all of the family especially Mrs. Wood, constant presence at her home and willingness to sacrifice her time and efforts for the benefit of any one of the family, endeared her to each and every one of them and their care and concern for her was no less than her devotion to them.

October 29, 1885 Polly May united with the church at Asbury Chapel and in 1912 when she came to this city and made her home with Mrs. Laura Taylor she transferred her membership to the Methodist church here and was a member until death.

MARKETS ROTTEN

Produce And Live Stock Drugs
Money Plenty In Cities
Much Soft Corn

Not only are producers of farm products but merchants as well confronted with problems most puzzling. What to do or what not to venture, has about every one checked against any move in any direction, hence business is at a virtual standstill. Grain and stock are simply not saleable yet flour and meal and pork and beef are but slightly reduced to consumer or dealer. The explanation?

According to reports money is plentiful in cities east and west tho rates on call are unusually high and money at any price denied rank speculators, it is said.

Panic feeling among farmers have caused them to flood stock yards and packers and exporters combined had no money to pay for such a volume of stock nor a place to hold it had they been in condition to buy.

Under all existing circumstances many with more or less stock fat or half fat, had to sell and such are swelling the number engaged in glutting the market, but many feared to take further chances, so to market goes their stuff along with that forced out of the hands of owners and consequences are inevitable. Soft corn preponderating everywhere, cheap and plentiful, feeding stuff way down, why is it not the time for some who do not have to depend upon banks to finance them to invest and feed?

The Alspaugh-Applegate-Rucker sale was called off Wednesday bidders being scarce and disinclined to pay living prices.

State Prohibition Effective.

The thirteenth amendment is now in effect and the enforcement of the law will be to the letter, according to high authorities. However, the thirteenth is not a constitutional amendment but a referendum of a statute passed by the last legislature which the dregs undertook to keep from a vote of the people. The great majority for the amendment, attributable to votes of women and influence of protected dispensers of booze, does not indicate that the ratification of the 18th. amendment was honestly procured nor that the state is irrevocably pledged to bone dry conditions.

J. E. Hamilton and wife of Fulton visited among relatives last week, arriving Wednesday and returning Monday. Mrs. Melville Hamilton is a niece of Mr. J. J. Moore, daughter of Ephraim Moore, deceased. Mr. Hamilton is president of Callaway County Rural Letter Carrier Association.

MAIL ROBBERS CAUGHT

Biggest Haul In Postal History
Engineered By Young Men
Cash Recovered.

Keith Collins, the last of the robbers of a mail car at Council Bluffs, Ia. two weeks ago, was captured after a fight at the home of his uncle near Muskogee Okla. He has confessed and turned in the contents of his cache amounting to more than \$22000. All cash but about \$3500 of the amount taken has been found but valuable stocks and bonds running into millions were destroyed. Collins was a railroad engineer before he entered the aviation service in the war and is under 24. He had a sweetheart, Miss Ella Peterson, who gave the tip which implicated him and resulted in his discovery and capture. Collins, the morning after the big robbery, tried to persuade his fiancee to marry him and make a trip to Europe, telling her he had \$27000 which he got for a patent. She refused and Collins not calling again, she suspicioned he was connected with the big mail robbery of which she had read an account and discarded her love for the handsome young man to do her duty. Mearl Phillips, Orville Phillips and Earl Phillips, aged 20, 17 and 18 and Fred Poffenberger, 19 and Keith Collins, 23 were the young men on the job tho Earl Phillips who was piling sacks in the car has not been connected with the crime. Collins took mail sacks as they were pitched from a sealed thru mail car and made off with them in an auto. Collins also got the sack which contained the \$50,000 in cash which he divided with Poffenberger.

Popular Girl Wire Cut.

Miss Margarette Bunton was the guest of her friend, Miss Frances Wood, south of town Thanksgiving.

Friday they concluded to make some home-made candy and being short of some ingredient, the girls ran across the road to the home of a neighbor. There was a stran of barbed wire around the yard and a ditch.

The girls, both athletes, were running swiftly and when they reached the ditch they jumped it. Miss Frances saw the wire and warned Margarette of its presence but hardly in time to more than prevent serious if not fatal injury. Miss Margarette turned her head and plunged into the wire and suffered some ugly gashes, one splitting her upper lip, another extending from nearly the top of her head to below her right shoulder and other slighter cuts on her face.

A surgeon was called and the cuts stitched and the indications are that there will be no permanent bad scars. Had the girl not been warned by her companion, causing her to turn her head to ascertain what it was about, the probability is that the wire would have cut both jugular veins, barely missing one on the right side of her neck as it was.

The game young girl returned to her home and next day took up the practice of her music lessons and a few days thereafter showed up down town bandaged all about her head and face and more indifferent to conditions than many of her friends.
